Windows

The Basics of Windows

Welcome to the Lunch and Learn Technology Workshop, sponsored in partnership by Connections and The Arc of Northeast Colorado.

Overview
Step 1: Desktop overview
Step 2: How to use Cortana
### Step 3: How to close, minimize programs
Step 4: Windows tips

Step (or Section) 1: Desktop Overview

- Background, taskbar, search bar, status bar, notifications
-
- Add a shortcut – type the name of the app in the search bar and right, select open icon, send to desktop, create shortcut.
- START – You can look at pictures, go into your settings, restart, power down.

Step 2: How to Use Cortona

- Click the circle to open Cortana

How to use Cortana: You can use Cortana to search for your favorite apps, games, or programs.

- Click the search bar in the bottom left-hand corner
- Search in the program, game, or app you're looking for: I.e., Microsoft Word, internet, Google Chrome, or even weather.
- Go ahead and try it yourself.
- If you're using a Chromebook, Cortana is not available.
Step 3: How to close, minimize programs.

- Notice the icons in your top right-hand corner

- The far-left icon will close the screen but not end the program. (Show example)
- The middle icon will minimize your screen.
- The X icon will close out the program.

Step 5: Windows tips

1.) Make sure your computer is updated
   a. Type in the 'search' for updates.

2.) What to do if your computer freezes
   a. Press "CTL + Alt + DEL" simultaneously, you'll see this screen (show class)
   b. Select end task to close program that is frozen
      i. OR if computer is frozen
   c. Select the Power button in the bottom right-hand corner (show class)
   d. Select restart.
